

JOIN THE (R)EVOLUTION

INNOVATION IN CONTEXT-SENSITIVE PUSH SERVICES AND MONITORING

HIWIFI API technology provides the only cross-industry and secure API solution for a **pioneering, direct, digital customer interface**. Developed by **INT.WIFI Connect GmbH**, the revolutionary technology is based on over 20 years of experience in the international digitalization sector.

HIWIFI API technology is proven, out-of-the-box, and easily integrated into **your App**. It locates potential customers, existing customers,

visitors and guests anonymously and thus not only allows **context-sensitive push services** directly at the point of sale, but also works reliably worldwide, device-independent, geo & context-sensitive and without external IT support.

Only **HIWIFI API technology** guarantees a direct digital customer interface without processing personal data (**DGSVO-compliant**) and **without advertising ID**.

ONLY HIWIFI-TECHNOLOGY OFFERS:

direct mobile ordering & advertising in hotels, restaurants, airports, shopping malls etc.

greeting the guests at any location & enable simple, barrier-free ordering

accessible, secure Auto-Connect & Auto-Login in Wifi, password-sharing, device-independent

reliable, multilingual outdoor and indoor navigation to the workspace or any location

fast, secure conversions through digital payment: individual payment methods

accurate indoor/outdoor monitoring of customers & guests: 100% controlling

Thanks to HIWIFI technology, you can reliably reach your customers context-sensitively exactly where they are, where they move and make purchasing decisions.

By leveraging the direct digital customer interface in real time and in the right place, turn users into revenue-generating guests and buyers through timely customer journeys.

THE MISSING LINK:

KNOWING EXACTLY WHERE YOUR CUSTOMERS ARE LOCATED

NEW MARKETING-POTENTIALS, NEW BUSINESS CASES!

HIWIFI API technology not only allows you to address customers in a context-sensitive, device-independent manner: it also enables you to effectively exploit previously **unrealized marketing potential**.
